

**Background**

The Swim Ireland Performance Team have identified within the Performance V-MOST that a progressive and targeted Regional Squad programme is a key tactic in achieving the Performance objectives for Tokyo 2020 and through to Paris 2024 and Los Angeles 2028. The programme will be aligned to the ‘On Track’ system and will evolve as such. The Regional Squad programme will sit directly below the National Programme and will display alignment to the National programme in terms of principles and content and will not operate as standalone programmes. For the Regional Squad programme, it is recognised that:

- Athletes should be a particular percentage outside of the ‘On Track’ system in regards to either the 2020 or the 2024 Olympic Games and should be differentiated as such
- Subject to individual athlete age, all Regional Squad members must be fully committed to an uncompromised and comprehensive training/coaching programme in preparation for peak performance in the relevant annual Swim Ireland International or National benchmark competition/s and the Irish Open Championships acting as the sole Trials for such events
- Through staff observation at previous Regional Squad, National Squad and/or National Team selections, athletes will have displayed behaviours and standards that are fully aligned with the Athlete Charter

**Programme 2018-2019**

Swim Ireland Performance will operate a three tiered Regional Squad Programme encompassing a Skills Academy cohort for Age Group athletes, a Development Squad cohort for Youth athletes and a Pathway Squad cohort for Senior athletes. A Regional Squad athlete can potentially be a member of the Skills Academy for three years before progressing to the Development Squad which provides support to athletes as they aim to achieve international selection within a one to four year period. Consideration will also be made in regards to older athletes with a Regional Pathway Squad, providing motivation and encouragement to athletes targeting events

## Regional Squad Programme 2018-2019

with an older age profile identified via the 'On Track' system. The Programme aims to support athletes as they aim to reach their full potential at senior national and/or international level. Athletes do not have to have been members of the one particular cohort in previous seasons before achieving selection to another cohort.

In addition to the annual Regional Squad Programme, the Regional Pathway Development Coaches will work in partnership with home programme coaches to ensure identified athletes are supported in achieving 'Trainability' (a frequency of training based on their stage of development) on a weekly basis via a combination of increased appropriate pool and gym access.

Athletes selected for the National Squad Programme will not be eligible for selection for their respective Regional Squad Programme in that season

### Staff Structure

In collaboration with the Regional Technical Committees and the Regional Pathway Development Coaches, the Swim Ireland National Performance Pathway Manager will oversee the implementation of the Regional Squad Programme. With Regional support, the National Performance Pathway Manager will nominate a Lead Coach for the Development Squad and Pathway Squad, and the Regional Pathway Development Coach will lead the Skills Academy and support the delivery of the Development and Pathway Squad Programme. All coaches with athletes on the squads will be asked to submit an Availability Form at the start of the season and coaches selected to lead or support the Programme will be entitled to CPD points in doing so and will have their expenses covered by the Region.

### Annual Membership Fee

Athletes will be asked for an annual membership fee that will contribute to the overall cost of the Core Programme and this fee will be agreed annually. The fee in the 2018-2019 season will be £110.00/€125.00 for the Skills Academy and £400.00/€460.00 for the Development Squad and the Pathway Squad. There may be other costs associated with athletes requiring additional services.

The Core Programme encompasses all Regional Squad activities that take place onshore and is the mandatory section of the Programme as a whole. Regions may require an additional contribution towards any offshore activities and part of the Supplementary Programme and each Region will have licence to set their own financial requirements around this. The Supplementary Programme is an optional section to the Regional Squad Programme on an athlete-by-athlete basis
