5th June 2020

Dear Clubs,

Following on from the recent Return to Water webinars, we are now in a position to share the following documents with you:

1. Return to Water Roadmap FAQ's
2. Return to Water Timeline

As you will see from the timeline document, it is our intention to publish resources for clubs on a weekly basis through a variety of mediums, providing you with information that you require at that time and allowing club volunteers the opportunity to review, ask questions and implement the advice in a manner that is reasonable. Discipline specific information will also be provided for Swimming, Open Water Swimming, Water Polo and Diving.

A club resource library is available on the Swim Ireland website and 'Return to Water' resources will also be accessible to clubs on an ongoing basis [HERE](#).

As we move towards the resumption of training in swimming pools, we want to empower and support our clubs through the provision of clear guidance that you can share with your facility and club members. It is also important for clubs to understand and accept that the COVID-19 risk has not been eliminated, but by putting the correct measures in place you can mitigate against and minimise the level of risk involved in a return to our sport. The Swim Ireland insurance policy cover will operate as normal (subject to the standard terms and conditions).

Finally, clubs are reminded that the advice and guidance provided by Swim Ireland is not legal advice or intended as a substitute for any applicable Government advice for clubs, members and/or users carrying out their own risk assessment of review.

All dates provided are subject to review following updated advice from Government officials in both the Republic of Ireland and Northern Ireland.

Please continue to regularly check the Swim Ireland website for further updates and contact Swim Ireland if you have any urgent questions or concerns.

Yours sincerely

Sarah Keane
CEO

Peter Conway
Chairman
